The "House-Rules" -- As published in DIPLOMANIA #18; read these carefully!

Miscellaneous -- Sorry to have to put publication of moves in former FANTASIA, ASTRA, HYSTERIA, SCHIZOPHRENIA, and BARAD-DUR games off until #28, but it will take 2 or 3 issues to get these games in rotation with about 15 per issue. Until then, please bear with us -- the games that are delayed will only be a week late. ##### Players note that, for the purposes of H-R #45, unit "furthest from home" is interpreted to mean furthest in time (i.e., number of provinces) rather than in distance. ##### Officially signed up (i.e., paid) for Major Powers in Hypereconomic (DMK) are Frank Clark, Kenneth Porter, Steve Cartier, Sid Cochran, Cole Harrison (still owes \$1), and Michael McIntyre (still owes \$1), so only one Major Power position remains open. Several persons have signed up for Major Neutrals, but only Dan Evans and Wayne Hoheisel have paid, and neither has indicated choice of countries. You all out there, please get your money (\$3 for Major Power, \$2 for Major Neutral, \$1 for Minor Neutral) and your choice of countries (choice given only for Major and Minor Neutrals) in soon so game may start. Remember, it is almost impossible for a person to get knocked out of this game except by choice, no matter which country he plays! Rules in DIPLOMANIA #19/20 (50¢). ##### DIPLOMANIA (Diplomacy genzine) 25¢ ea, 5/\$1.

Propaganda --

Gibraltar (31 Oct 1909) -- For the first time since the 18th century, the gateway to the Mediterranean has fallen by force of arms. The Austrian Second Fleet, after two months of steady bombardment, has forced the small Anglo-French garrison to surrender. The victory was a bitter one, however, for in the confusion, General Dimmelroi, the French commander in Iberia, was allowed to escape into Spain. ##### There is jubilation in the Austrian navy tonight, in spite of the disappointment, for for the first time in centuries is the Inner Sea controlled by its own people.

Vienna (7 November 1909) -- In historic actions, the Assembly of the Central European Federation today made the Kingdom of Egypt, the Kingdom of Libya, the Republic and Free City of Algiers members of its community of nations. Embracing as it now does, almost the entire Mediterranean shoreline, and most of the old Roman Empire, the CEF is the most powerful union to be formed since the United States of America in 1776. Begun in 1903 as a successor to the Habsburg Empire, it expanded to include the Kingdom of Italy, after the new Federation intervened in civil strife in that peninsula. Then came the war with Turkey, now drawing to a close, which saw the Federation reach the Indian Ocean and the sources of the Nile. The actions completed today, making Egypt, Libya, and Algeria full members of the Federation, underscore the multi-national and multi-racial character of the organization. If and when its acknowledged goal of uniting the peoples of the Mediterranean is fulfilled, it will become, after China, the largest and most productive nation of the earth. ##### There is even, in the minds of some politicians of the Federation, as far off and remote as it may seem, hope for a union of the two greatest powers of Europe. "Not only", as one official put it, "a united Christendom but a united Mohammedanism as well" -- a dream even Charlemagne and Caesar never shared.

Propaganda --

Constantinople -- It is with grave misgivings that we look at the Russian demarche in the Ukraine. While peacefully complying with the provisions of our recent treaty, Russian and Austrian troops attacked and massacred our Army of the North. The government of the Ottoman Empire reminds Russia that without our aid it would never have come to power, and likewise without our efforts on its behalf, would never have even been allowed to regain its homeland at all. ##### We commend to the gaze of the Czar the fertile Austrian plain as a target for his obvious avarice. It is most doubtful that any military force of any size can regain the Crimea for the Russias without our consent. However, the Austrian realms of Galicia and Bohemia are most open to your reach. Our aid, of course, would help you to gain Austrian territory for your own use. We have little doubt that our nations can work profitably together. We hope you share our confidence.

England -- France: I hate to say, "I told you so."

Moscow -- As the Russian leader was taking in the town he was shown the upcoming military plans, which ruined his vacation. His crossed fingers do not help his tennis game at all.

St. Petersburg -- Contrary to the accounts of numerous romors circulating at this moment there is no agreement between the Russian people and the Turks, and there never will be until every Turkish body is either six feet under or south of the border.

Propaganda --

Austria -- Certain demands upon Austrian mobilization have angered this country,
 which retaliates with certain indicated suicidal tendencies.

England -- France!!! Yes, you: What is this stuff? I am surprised that you would
 do this, when there are such easier pickings in Germany and Italy. Also, if you
 will take a quick peek at, of, POC, for example, you will notice that the Western
 powers are fighting among themselves -- while the East cleans up. I am naming no
 names, but if a certain Eastern Power whose initials are Austria is not stopped,
 your "conquest" of England is going to be a rather shallow victory. You need
 those fleets in the Med, not in the North -- you may soon find Austrian fleets
 overwhelming you -- and don't say I didn't warn you!

Rome -- Are there not any good Samaritans in this world?

Propaganda --

Moscow -- First the Austrian puppet shows his true colors, and NOW the Barbarian hordes descend on the gates of Sevastopol! WHO is Russia's friend in this darkest hour? TURKEY -- who asked for Russian non-intervention in its war with Austria and Italy and now repays it in Russian blood? The only country left is FRANCE -- and he has his own problems. If England is treacherous, I will help France blow him out of Germany -- just communicate. What say, baby? ##### Oh, the life a peaceful and honest nation must lead with all this treachery and needless bloodshed -- what ever happened to the true people whose only beliefs were in God, Mother, the flag, and Apple Pie?  Propaganda --

Paris -- Rome: In regard to your latest public plea for mercy -- (1) We are not a
 "latin" country. (2) I am not a President, but a King, and (3) Our forces in Russia,
 which you guarantee not to attack, do not exist. Nevertheless, after studying the
 war situation critically, we are forced to agree that Russia, up to now our friend,
 must be put in his place. We feel that, by our hitherto unremitting attacks on
 Italy, we have given Russia great advantage, and he cannot now cry treason if we
 turn against him. Our friendship was never intended to give Russia control of
 Europe, to the ultimate disaster of France. Therefore, France, the West's strongest
 power, proposes that there be peace and cooperation among ourselves, England, and
 Italy, lead by us. In the Spring of 1908 we will attack Kiel. Italy must then at-
 tack, and will capture, Munich. England may use the knowledge of our attack on Kiel
 to his own advantage, if he can. We have a strong navy in the South, and we will
 not keep it idle. Italy must, to keep our friendship, move Tus-Rom, Pie-Tus, Ion-
 north or east, and Nap-hold or Apu. We will move our strength eastward, but pledge
 not to attack the Italian mainland. We aim at Turkey. We will not move Mar-Pie,
 either. We will move to Ion, and will keep Tyr to keep you honest. France can
 achieve her aims without attacking Italy. If you do not do as we advise, we will
 consider our offer of alliance withdrawn, will help Russia back into Mun, and oc-
 cupy Italy ourselves.
